Shinai Kindergarten is celebrating its 112th anniversary this year. We have continued to walk with the history of Beppu City since it was Beppu Village, and since its founding, we have been praying "The love of Jesus Christ to our children" to this day.

We hope that the children will find a place and enjoyment in their daily lives, grow up in mind and body while rejoicing together, and that it will be a time for important human development.

Educational Policy

Since our founding, we have been fostering "love," which has been at the center of the teachings of Jesus Christ, as a starting point for education.

- 1 We accept childrens individuality
- 2 We foster abundant emotions,strong bodies,and kind hearts.
- 3 We accept children of all religions and backgrounds.

2 and 3 year old classes “Sumire”

Since July 2019, We offer a daycare program for 2-year-olds(category 3 certification)and 3-year-olds (category 3 and 1 certification.)The “Sumire” class is where toddlers can interact with elder students and teachers for the first time, and expand their horizon of opportunities and experiences they had with their parents. Applications can be made at Beppu City Hall. Please contact us for more information.

Free Childcare Fees

Kindergartens are often thought to have shorter childcare hours than daycare centers, but we also provide after-school care. What we value most is learning through play. We create a safe space for children through our Christian Early child hood education.
